

"Vocabulary Level I-A" Blackout Worksheet

Directions: Below you will see definitions followed by a string of letters. One of your vocabulary words is hidden inside that string of letters. Your job is to find the word by blacking out the letters that do not belong. For example, if you see QWSDATGHKLDEBR and you know that your vocabulary word is "WATER", then you would take a pen or pencil and black out the Q,S,D,G,H,K,L,D, and B until just the word "WATER" is left. See if you can figure out each vocabulary word below by blacking out the unneeded letters.
